The primary goal of a street play is taking a social message to a large group of people. This helps to create a sense of awareness in the society in which we live. Every street play has a specific public social theme and the actor who performs should possess the skill to exhibit and portrays the theme well.

Our DLLE students enacted Nukkad Natak street play on women Empowerment to give awareness about the importance of girl education in which they presented the different problems and discrimination faced by women in society in collaboration with shanty nagar ladies police department.

Female education is a catch-all term of a complex set of issues and debates surrounding education for girls and women. It includes areas of gender equality and access to education and its connection to the alleviation of poverty.
