## CO- PO ATTAINMENT

**Department:** Commerce

**Subject:** Business Economics

**Semester:** I

**Faculty Name:** Asst. Prof. Kamini Pawar

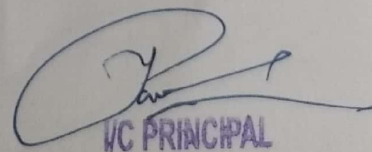

**Year:** 2023-24

### COURSE OUTCOME

**Business Economics:** This paper provides an overall introduction to economics as dealing with the problems of allocation of scarce resources in optimum manner. It aims to build a familiarity with the basic tools of consumer and producer theory, the operation of markets and optimisation in an economic context. In order to explain economic issues and solutions in a practical manner, the concepts are to be discussed with case studies and numerical problems wherever applicable.

1. Understanding Economic Concepts: Students should be able to demonstrate a clear understanding of fundamental economic concepts, including supply and demand, elasticity, production, costs, and market structures.
2. Analyzing Market Behaviour: Students should be able to analyse how different market structures (perfect competition, monopoly, oligopoly, etc.) affect the behaviour of firms and consumers.
3. Macroeconomic Analysis: Students should be able to comprehend and analyse macroeconomic concepts such as GDP, inflation, unemployment, fiscal policy, and monetary policy.
3. Economic Decision-Making: Students should be equipped to make informed economic decisions by evaluating costs and benefits, assessing risk, and understanding the concept of opportunity cost.
4. Business Applications: Students should be able to apply economic principles to real-world business scenarios, including pricing strategies, production decisions, and market entry strategies.
5. Economic Policies: Students should understand how government policies, including taxation, subsidies, and regulations, impact business and the economy as a whole.
6. Data Analysis: Students should develop skills in gathering and analysing economic data to support decision-making and draw meaningful conclusions.
